EXPERIENCE

SEARCH FUND COALITION

NYC, USA

A VC-backed Entrepreneurship Through Acquisition startup connecting aspiring entrepreneurs with small business owners for acquisition opportunities.

Data & Marketing Insights Analyst

2025

- Architected an automated CRM system tracking 7,000+ contacts using Excel and Power Query, reducing manual update cycles by 90% and enabling faster performance reporting and decision-making for leadership.
- Applied clustering techniques to segment contacts by engagement patterns and lifecycle stage, enabling targeted outreach, re-engagement, and prioritization strategies that increased campaign efficiency by 35%.
- Built Power Query ETL pipelines integrating events, newsletter, and web analytics data, compressing 6-hour manual processes to 30 minutes and enabling recurring performance dashboards and automated reporting used in weekly and monthly business reviews.
- Compiled leadership-ready insights on segment retention, re-engagement lists, and high-potential prospects, lifting campaign efficiency by 25% and delivering clear data narratives through dashboards and executive business review materials.

BOHEMIAN WAY

LAGOS, NG

A brand management firm specializing in helping MSMEs develop unique and compelling brands that stand out in the market.

Marketing Data Analyst

2022 - 2024

- Consolidated 170K+ K-12 records from fragmented public sources into a unified dataset using Excel and Power Query for a client engagement, enabling precise audience targeting that contributed to \$22,000 in first-month revenue generation.
- Designed and operationalized A/B testing frameworks across digital channels, analyzing funnel and attribution metrics in Google Analytics to optimize messaging strategy, resulting in a 25% lift in campaign effectiveness and a 15% reduction in cost-per-acquisition.
- Orchestrated a three-tier market segmentation model across 500+ local government areas, narrowing go-to-market focus from 500+ to 112+ priority areas and improving outreach efficiency by concentrating efforts on highest-opportunity markets.

GODSPEED MEDIA TECH

LAGOS, NG

An innovative tech academy offering hands-on training in software development and digital skills.

Marketing Analytics Associate

2021 - 2022

- Developed 5+ interactive dashboards in Power BI and Google Data Studio, synthesizing data from 20+ campaigns to deliver actionable insights that accelerated marketing-to-sales handoff by 30%.
- Collaborated with product and sales teams to launch 3 integrated digital campaigns, analyzing funnel metrics and optimizing touchpoints to improve lead-to-customer conversion by 10% and generate \$16K in incremental revenue.
- Analyzed customer behavioral data using Google Analytics, identifying enrollment friction points and informing targeted content strategy that drove 12% growth in bootcamp registrations.
